Mr. Randall occupied the suggests that the court is coming to the belief that this is a nation with a big N, unious position of a high protective tariff Democrat, and no Republican ever championed with deeper carnestness the cause of so-called protection for American tabor and American industries than he did. in all other matters he was with his party heart and soul, and until overwork, age and disease made it necessary two three years ago for him to put on the brakes and move slower, no man not know what has been taught since the worked harder for the advancement of genesis of the race, that a contrary woman Democratic doctrines and the success of the great party of the people. THE NEAGLE CASE.

The case of Deputy United States Marshal NEAGLE, of California, who shot Judge Trunt, has been finally disposed of, but not in a way that will give confidence and comfort to citizens who have thought that states had some rights which the federal government should respect. There was no had been made by the Tunnys against Justice Figure, who had sent them to prison for and display. The American Victoria evicontempt of court, they having been quilty and display. Less that a misapprehenof an assault upon the United States mar shal in open court. TERRY was a desperate man; he was a man of violent temper, had ideas and ways; in face, has never redone some killing and always carried weapons. There was a probability that he would attempt to carry his threats against Justice FIELD into effect. The character of the man supposted the wisdom of guarding sgainst him, and the marshal assigned NEACLE to the special duty of protecting the judgo-to act as a bodyguard for the jurist. This was all proper enough, and the deputy seems to have been the right man in the eight place. The first opportunity that their departure, no matter how many po-Tesmy found he assaulted France, manifestly for the purpose of provoking a row and killing the judge. NEAGLE was on hand, ned by the promptness in the use of his pixed proved that his chief made no mistake when he selected him for the peculiar cuties. These went as far as it was them at Dinwoodey's. rafe to permit him to go, when the deputy tragedy. Up to this point all can be approved if not applauded, though one does not like to think that in this democratic Please republic it is necessary to hire men to probest the persons of officials. Subscentings will confer a favor by forwarding the nation, sets one to wondering if a case can arise over which the state would have exclusive jurisdiction. Neagle's act was in California; he killed a citizen of California; he was in the custody of the state for the alleged violation of a state law; if he were guilty of any crime it was against the peace and dignity and law of California, and that state being under the control of 1.01 law was abundantly able to punish him; if he committed no crime the state was able

to acquit and protect him. Just where the right of the federal govped, chould always give former ernment came in, the ordinary layman cannot see, unless it shall be pointed out to him that the United States are supreme sion through the mails as all over the land, that states mean nothing and the state lines are as imaginary as is the claim that states are supreme within themselues as to purely local affairs.
